**FOČA** je grad u koji se dolazi. Tako je bilo vijekovima, tako je i danas. Jedinstven geografski položaj i prirodno bogatstvo privlačili su narode, trgovce, osvajače, putnike...

Ovaj kraj bogat je vodom, šumom, rudom, a turistički potencijal je nemjerljiv. Najočuvanija prašuma u Evropi – *Perućica*, najdublji kanjon u Evropi – *kanjon Tare*, *Nacionalni park „Sutjeska“*, gdje se nalazi i najviši planinski vrh u BiH – *Maglić*, *Zelengora* sa osam jezera, *Pješčane piramide* nadomak Foče – jedinstveni reljef gdje su snimani vestern filmovi... Ovo su najveće dragocjenosti Foče.

Burna istorija i kretanja naroda i vojski ostavili su vrijedno kulturno-istorijsko nasljeđe. Foča se proteže od pitomih drinskih zaravni do nepristupačnih planinskih vrhova. Premrežena je sa *17 rijeka i rječica* i mnoštvom planinskih potoka. Razlika najniže i najviše tačke na području Foče je 2000 metara. Pravi je mamac za turiste, avanturiste, planinare, lovce, ribolovce, biologe, geografe, istoričare i ostale koji prepoznaju njenu vrijednost. *Zato se u Foču dolazi. Dodite i vi!*

**FOCA** is the city people are coming to. That's how it was for centuries, so it is today. The unique geographical position and natural wealth attracted people, traders, invaders, travelers... This region is rich in water, forest, ore, and the tourist potential is immeasurable. The most preserved rainforest in Europe – *Perucica*, the deepest canyon in Europe – *the Tara canyon*, *Sutjeska National Park*, where the highest mountain peak in Bosnia and Herzegovina is located – *Maglic*, *Zelengora* with eight lakes, *Sand pyramids* near Foca – unique relief where Western movies were filmed ... These are the greatest valuables of Foca.

The tumultuous history and movements of the people and the armies left a valuable cultural and historical heritage. Foca stretches from pitiful plains of the Drina river to inaccessible mountain peaks. It is crosslinked by *17 rivers and rivulets* and numerous mountain streams. The difference between the lowest and the highest point in the Foca area is 2000 meters. It is a true bait for tourists, adventurers, mountaineers, hunters, fishermen, biologists, geographers, historians and others who recognize its value. *That's why people are coming to Foca. You should come, too!*

## FOČA U PROŠLOSTI / FOCA IN THE PAST

Materijalni ostaci svjedoče da je fočanski kraj bio naseljen od najstarijih vremena, a u pisanim izvorima prvi put se pominje 1368. godine, pod današnjim nazivom. Naselje se razvijalo uz trgovinu i zanatstvo po kojima je ova sredina dugo bila prepoznatljiva.

*The material remains testify that the Foca region was inhabited from the earliest times, and in written sources it is mentioned for the first time in 1368, under the present name. The settlement developed with trade and craftsmanship for which this environment has long been recognizable.*

## SAT KULA / CLOCK TOWER

Sagrađena je 1758. godine, kao zadužbina Mehmed paše Kukavice. Satni mehanizam je poklon Dubrovačke republike. Visoka je 20 m.

*It was built in 1758, as an endowment of Mehmed Pasha Kukavica. The clock mechanism is a gift from the Dubrovnik Republic. It is 20 m high.*

## BEGOVA KUĆA / BEY'S HOUSE

Kuća porodice Avdagić, zvana Begova kuća sagrađena je polovinom XVIII vijeka. Predstavlja tipičnu fočansku kuću iz tog perioda.

*Avdagic family house, called the Bey's House, was built in the middle of the 18th century. A typical Foca house from the period in which it was created.*

## PJEŠČANE PIRAMIDE

Ovaj jedinstveni geomorfološki fenomen, nastao je dugim nizom godina, erozijom tla i pod uticajem agresivne sprege mrazeva, ljetnih vrućina, kiše i jakih vjetrova. Ono što je zanimljivo jeste da proces erozije traje i danas tako da pješčane piramide ne nestaju, nego rastu. Oblikom i sastavom podsjećaju na piramide u Koloradu (SAD), Dolomitima (Italija) ili na piramide u Đavoljoj Varoši (Srbija). Nalaze se nedaleko od Foče u mjestu Pirni Do, visoke su do 20 m.

This unique geomorphologic phenomenon has been created for many years, by erosion of the soil and under the influence of aggressive frost strong winds. What is interesting is that the process of erosion continues even today so that the sand grow. The shape and composition are reminiscent of the pyramids in Colorado (USA), Dolomites (Italy) or the pyramids in Devil's Town (Serbia). They are located not far from Foca in the place called Pirni Do, they are up to 20 m high.

*Pećina Ledenjača*

Spomenik prirode „**PEĆINA LEDENJAČA**“ predstavlja prostor nekadašnjeg boravka praistorijskih ljudi. Ispred ulaza postoje praistorijski crteži za koje se smatra da, najvjerovatnije potiču iz bronzanog doba.

The monument of nature, „**LEDENJACA CAVE**“ represents the area of the former residence of prehistoric people. In front of the entrance there are prehistoric drawings that are believed to be most likely from the Bronze Age.

Na talasima rijeke **TARE**, jedne od najljepših rijeka u Evropi, kanjonom dugim 80 km, dubinom od 1300 m, poslije kanjona Kolorado, po dubini drugim u svijetu, ljubitelji avanturizma doživjeće nezaboravno iskustvo.

Za svoje goste rafting klubovi organizuju spust prepun adrenalina, tokom kojeg uživaju u nestvarno lijepim okolnim pejzažima i jedinstvenoj prirodi najdubljeg kanjona na starom kontinentu. Gosti su smješteni u kampovima na samoj obali rijeka. U bogatoj turističkoj ponudi su im i specijaliteti domaće kuhinje, a u skladu sa njihovim željama organizuju se i fakultativni izleti do atrakcija u okruženju.

On the waves of the **TARA RIVER**, one of the most beautiful rivers in Europe, down the 80 km long canyon, 1300 m deep, after the Colorado canyon second deepest in the world, adventure lovers will have an unforgettable experience.

For their guests, rafting clubs organize rafting full of adrenaline, during which they enjoy the unreal beautiful surrounding landscapes and the unique nature of the deepest canyon on the old continent. Guests are located in campsites on the very bank of the river. In the rich tourist offer they have specialties of local cuisine, and in accordance with their wishes, they organize optional tours to the attractions in the surroundings.
